VirtuoVivo Scanner Instructions
### (Suggested Workflow)

Pre–Scan Instructions

Step 01	Login to your VirtuoVivo account.

| Step 02	If the patient is a current patient of your practice: ○ a. Go to the VirtuoVivo WorkSpace – scheduled patients will be shown here.

If the patient is a new patient to your practice:

- a. Go to the Patient & Dentist Management screen – press the New Patient button.
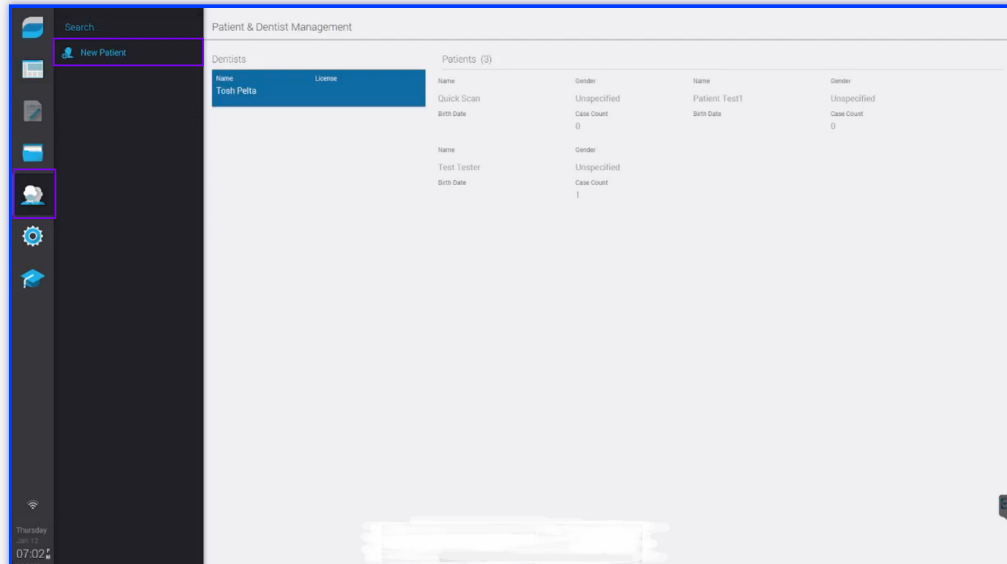

- b. Fill in the required patient information (First and last name) and press Save.

Step
03

○ c. Press on the new patient card to assign a doctor to the patient.
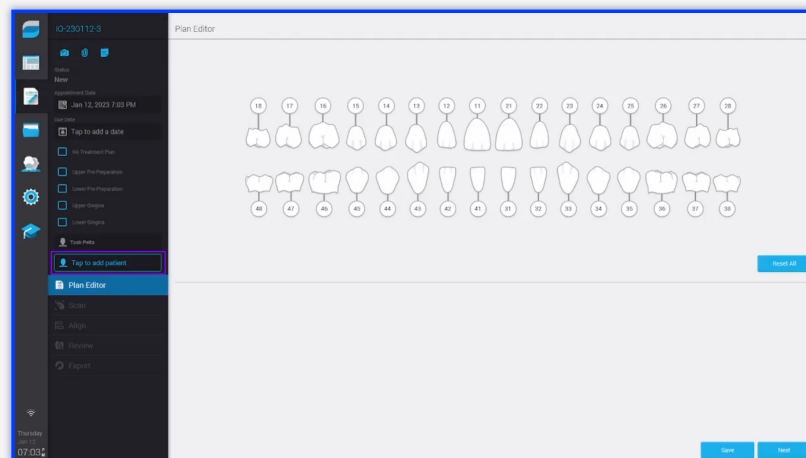

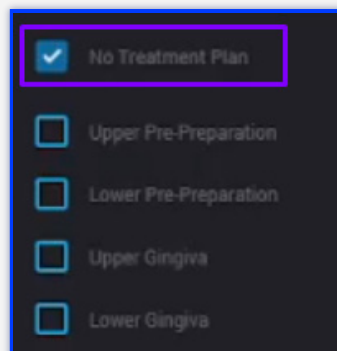

You'll be taken back to the WorkSpace screen, from here press New Case.

○ a. Press "Tap to Add Patient" and type in the patient's name and select the patient's name from the list.

○ b. Ensure that "No Treatment Plan" is selected from the treatment options before proceeding.

○ c. Press Next to proceed to scanning.

Step 01

Scan patient's lower and upper arches, and obtain a single occlusion scan as described in the **Proclaim Scanning Guide**.
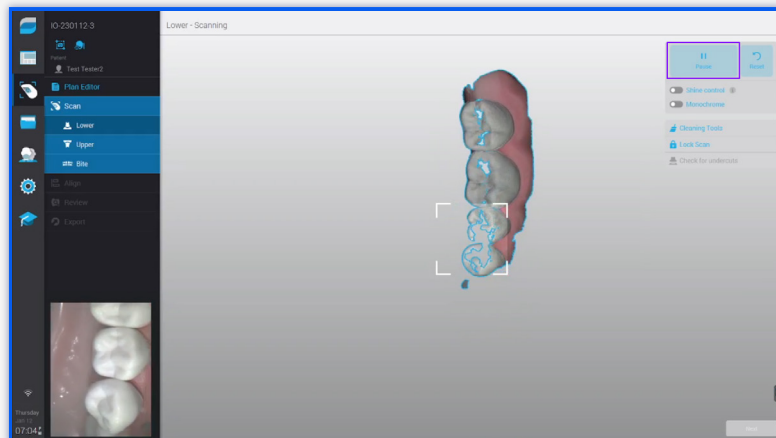

Step 02

If needed, allow the scanner tip to heat up. This can take a few minutes.

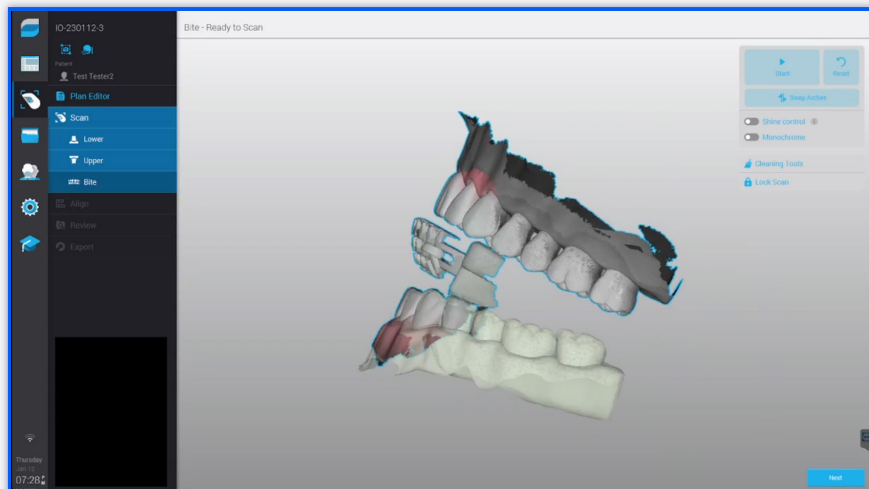

Step 03

To start scanning and stop scanning, Press the Pause/Start button and simply start scanning the patient's teeth, starting on the terminal molar.

- a. A "rock and roll" strategy is suggested for use with VirtuoVivo.

Step
04

When conducting the Bite scan, ensure Auto Alignment by continuing to scan until both arches align in the correct position.
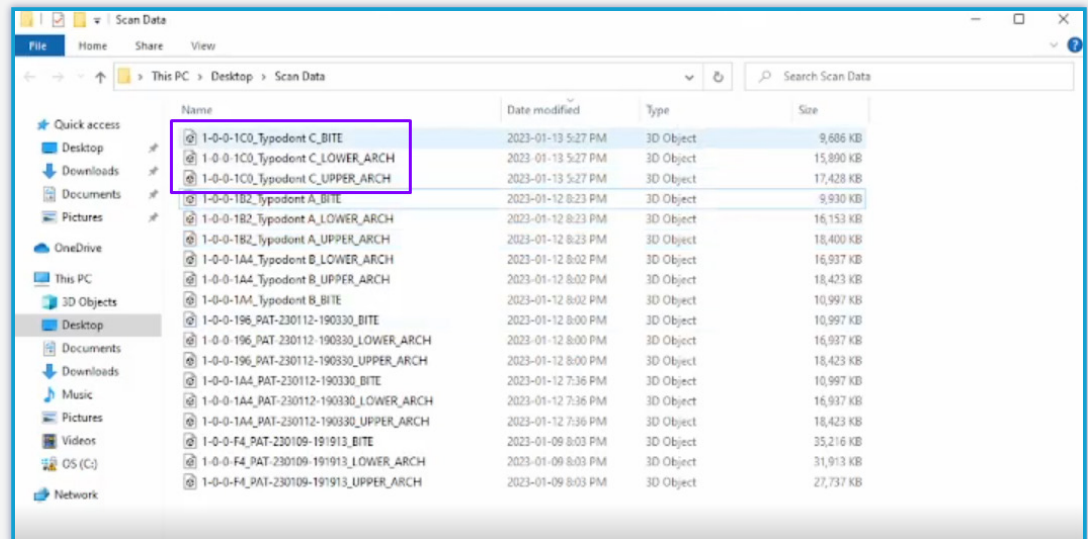

Exporting STL files

Step
01

Choose Export type: Local.

Step 02

Press Export.

Uploading to Proclaim Connect

Step 01

Log into **Proclaim Connect** and follow **this link** for instructions on how to upload scans.
